

Tender Q&A Document

Risk assessments to inform the revision of End of Waste Frameworks for compost and digestate

1. *In relation to the current tender opportunity: Risk Assessments for Compost and AD, as per the ITT can you please provide a copy of the "Hazards of Interest" document.*

Please find the 'Hazards of Interest' file linked [here](#).

You'll find that the document is comprised of a table of hazards. The 'Initial Comments and Suggestions' column contains considerations and preliminary recommendations for each hazard. These recommendations were discussed by a Steering Group of key stakeholders overseeing the project. The 'Next Steps' column indicates the further actions required for each hazard, as agreed by this Steering Group.

The 'Initial Comments and Suggestions' have been kept in the table as they provide added context for certain hazards (e.g., pesticides). However, please refer to the colour-coded 'Next Steps' column when considering project scope.

Hopefully this will be clear as you read through the document but if not, let us know.

2. *If possible, it would be useful if you could give an indication of the expected budget range for this piece of work, which would help us in considering the scope and breadth of the assessment.*

The ballpark budget range for this project is roughly between £80k and £125k, inclusive of sampling (if necessary). Please note this is an estimate. A potentially more useful indicator of the intended scope and breadth might be the 'Hazards of Interest' document mentioned in the tender invitation (and linked [here](#)).
